EXPERIENCE

UX Designer
Google UX Design Professional Certificate | JUN 2023 – Present
– Follow the design process: empathize with users, define pain points, ideate solutions, create wireframes and prototypes, test and iterate on designs.
– Understand the basics of UX research, like planning research studies, conducting interviews and usability studies, and synthesizing research results.
– Apply foundational UX concepts, like user-centered design, accessibility, and equity-focused design.
– Designed user interfaces with compelling interactions while ensuring best practices for usability, accessibility.

Web Developer - Frontend Development Internship
Ipdaa Tech – Egypt | SEP 2019 – NOV 2019
– Bringing a designer's concept to life with HTML, CSS, and JavaScript, bootstrap, jQuery.
– Production, modification, and maintenance of websites and web application user interfaces.
– Implementing responsive design for mobile sites.
– Building reusable code for future use.
– Optimizing web pages for maximum speed and scalability.
– Developed and improved user interfaces for web applications, resulting in 41% reduction in page load times.

System Administrator
ARHDG GROUP, Egypt | MAR 2016 – SEP 2017
– Previous experience as a certified MCSE system administrator before changing my career to web development and design.
– Configured, installed and maintained servers, network, VOIP, and the setup of local area networks for a hospital.

EDUCATION

Information Security Scholarship
Ministry of Communications and Information Technology (MCIT), Egypt | NOV 2014 – FEB 2015

B.Sc. in Electronics and Communications Engineering
Mansoura-University, Egypt | SEP 2009 – JUL 2014
Graduation Project: Camera Stability System.
